**Troy University Board of Trustees  
Report On the Statewide Plan for  
Higher Education of Alabama  
May 2005**

## **Introduction**

The Troy University Board of Trustees shares the goals of access, cooperation, quality, resource enhancement, and workforce development as outlined by the Alabama Commission on Higher Education (ACHE). These goals are at the heart of the University's merger of the institutions comprising the Troy State University System, a process that began officially in 2000. At its most fundamental level, this process consisted of taking three separately accredited institutions and unifying them under one academic accreditation.

This report will show the relationship between the goals of the ACHE plan and the Board of Trustees goals which led to the unification of Troy University. In addition, the university is in the first phase of developing its new strategic plan for 2005-2010—*Vision 2010*. All University planning efforts reflect the State Plan, and further each objective in the new plan is tied to University Strategic Initiatives, State Plan Goals and University Goals as follow.

### **Purpose of the State Plan for Alabama Higher Education and The Mission of Troy University**

The purpose of the State Plan is “(1) to focus public attention on important strategic issues facing Alabama higher education and the state; (2) to articulate Alabama's needs and its vision for higher education; (3) to commit resources necessary to provide high quality teaching, scholarships, research, and public service programs for Alabama citizens; and (4) to promote stronger working relationships among stakeholders with an interest in establishment of common goals and the resolution of issues related to the improvement of higher education in Alabama.”

While the purpose of the State Plan is to set forth possibilities, the mission of Troy University is to make possibilities a reality:

**2. Troy University Goal: Provide services that promote the individual welfare of students.**

State Plan Goal 3—Quality: Strengthen instructional programs, evaluate and assess their effectiveness, and use the results to improve quality.

Troy University's transformation from a system to a unified university will enhance the academic mission of the University in several ways:

1. **Accreditation.** One institution will eliminate the need to seek separate SACS/specialized accreditation processes, resulting in a reduction of faculty/staff time and cost savings while achieving the same end.
2. **Program viability.** Troy University's main campus already enjoys the highest program viability among Alabama public colleges and universities. Unification of system campuses would immediately enhance program viability at the Dothan and Montgomery campuses.
3. **Eliminate duplication.** The University will issue one academic calendar, one faculty handbook, one student handbook, one undergraduate bulletin and one graduate bulletin system-wide.
4. **Better Positioned for academic excellence.** Troy University will be in better position to expand graduate school to include need-driven programs. This will build on the University's status as the largest provider of graduate degrees in Alabama.
5. **Extensive use of higher education technology.** Troy University will be on the leading edge of digital programming and distance learning programming.
6. **Greater job and career options.** A much larger and more visible university will gain more attention from other graduate schools and corporations.

As part of its transformation, TROY worked extensively with the Commission on Colleges of the Southern Association of Colleges and the Alabama Commission of Higher Education to ensure quality was maintained every step of the way.

Quality improvement is ongoing as is monthly review of strategic plans. There is also an annual leadership conference wherein the leaders of the University (some 154 in 2004) review the state of the institution. Chancellor Hawkins also meets bi-weekly with his cabinet and the senior vice chancellors of the institution.

Minut

- Through the creation of an international economic development center on the Troy campus, the university will continue to lead the way for helping all segments of the population reach out to and bring the world to Alabama.
- Troy University is a life-long learning institution. Across the state, nation and world one can find members of the United State Armed services who would not have their current level of educational attainment with out this institution.

**1. Promote discovery and exploration of knowledge dedicated to life-long learning success.**

**Conclusion**

It is the opinion of the Board of Trustees of Troy University that this institution is an Alabama treasure providing quality education, partnerships and multiple levels of economic development for the state. Over the course of the next five years we fully expect the university will lead the way in its entrepreneurial spirit to do even more for its students and all citizens of the state of Alabama.
